Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This office action is in response to the amendment filed on July 22, 2009.

Claims 1-6, 8, 10-11 and 50-51 are pending in this application.

Withdrawn Rejections/Objections:

Applicant is notified that any outstanding rejection/objection that is not expressly maintained in this office action has been withdrawn or rendered moot in view of applicant's amendments and/or remarks.

The following rejections are maintained:

1. Claims 1-6, 8, 10-11 and 50-51 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-63 of U.S. Patent No. 6,713,474. The reasons provided in the previous office action are incorporated here by reference.

Applicant's request to hold the rejection in abeyance until allowable claims are found in the application is acknowledged.

2. Claim 6 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 6 recites the limitation "ring A is substituted with one or more substituents selected from the group consisting of ... **carboxyl**, ..." in lines 1-5. There is insufficient antecedent basis for this limitation in claim 1 on which claim 6 is dependent (via claim 5). The list of substituents for ring A provided in claim 1 does not include a **carboxyl** group.

Applicant indicated that "the term "carboxyl" has been deleted from claim 6". However, the claim still contains the term, see line 5.

The following rejections are under new grounds:

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 51 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 51 recites the limitation "L is **NRSO₂**-" in line 2. There is insufficient antecedent basis for this limitation in claim 1 on which claim 51 is dependent. Claim 1 does not contain the above term in the definition of L, see pages 3-4, particularly page 4 (relevant portion of claim 1 from page 4 is depicted below for convenience):

heterocycloalkyl; or L is -NRC(O)-, -NRC(O)O-, -S(O)₂NR-, -C(O)NR- or -OC(O)NR-, and R₃ is substituted or unsubstituted alkyl, substituted or unsubstituted alkenyl or substituted or unsubstituted aralkyl;

Further, the claim recites that "L is **NRC(O)-**" (see line 2), which appears to be a monovalent group. The term "L" is a divalent group in the structural formula of claim 1 and therefore, the above L definition should be recited as: -- **NRC(O)-** -- (consistent with claim 1). Appropriate correction is suggested.
